

Soil Health Card

Certified by: Unikisan AgroTech Private Limited

General Information

- District: Nagpur
- Villages: Kuhi
- Group of Farmers: 10
- Soil Type: Medium
- Soil Colour: Light
- Certification Stage: L1

Soil Nutrient Analysis

Ph	7.8
Oc	0.4
Ec	0.15
Nitrogen (N)	135 Kg/H
Phosphorus	90 Kg/H
Potash	315 Kg/H
C/N Ratio	8:01

Conclusion: Soil is under Organic Conversion (L1) for two reasons

1. Oc (Organic Carbon) > Oc < 0.5
2. C/N (Carbon/Nitrogen) ratio < 10:1

Remark: The above data represents average historical values based on the Soil Health Card report issued by the registered laboratory of Dr. P.D.K.V. College of Agriculture, Nagpur.
